COMPLEX COMMERCIAL LITIGATION BOUTIQUE

In the world of complex commercial litigation, Fensterstock & Partners has been called, by its clients, a "lethal weapon", the "David versus Goliath" and "Robin Hood". With a small but efficient and experienced team, Fensterstock & Partners cuts to the chase, seeks an economically viable settlement if possible, and if all else fails, uses every weapon in its arsenal to achieve an ethical and efficient result. Using technology, imagination, and an Olympic desire to win, the team is at your disposal 24 hours a day 7 days a week. Our team becomes one with our clients, partnering with them, and sharing in the thrills of a successful result. Since its inception in 1998, the firm has found no case to stop the Fensterstock team in its path to victory for our clients. When necessary and appropriate, we will proceed to trial. Unlike other firms with litigation departments, we love to try, and have been very successful in trying, cases.
